## Child/Youth Needs Report

This report reviews a young person's needs to identify areas which could use support. The child & family team work together to address needs and help make progress towards goals. Needs rated as a '2' on the CANS are actionable and may be a focus of care. Needs rated as a '3' require immediate action. Needs rated as a '1' are potential needs and areas with no need are rated a '0'. A goal for a need is reached when a rating is reduced from a ('3' or '2') to a ('1' or '0'). Use the **CANS Rating Key** to review rating definitions. New needs may arise over time as circumstances change.
