Term	Definition
<b>Top Need:</b>	The top 10 most frequent CANS actionable needs for children/youth in the Local area. Actionable needs are those which were ever rated '3' or '2' on any assessment during an episode of care.
<b>Top Strength to Build:</b>	The top 10 most frequent CANS actionable strengths to build for children/youth in the Local area. Actionable strengths to build are those which were ever rated '3' or '2' on any assessment during an episode of care.
<b>Top Strength Present:</b>	The top 10 most frequent CANS strengths present for children/youth in the Local area. Strengths present are those which were rated as '1' or '0' on the most recent CANS assessment.
<b>Top Resource Present:</b>	The top most frequent CANS caregiver resources present for children/youth in the Local area. Caregiver resources present are those which were rated as '1' or '0' on the most recent CANS assessment. There are often fewer than 10 possible caregiver resources.
<b>Potentially Traumatic Experience:</b>	The top 10 most frequent CANS potentially traumatic experiences for children/youth in the Local area. Potentially traumatic experiences are those which were ever rated 'Y' on any assessment during an episode of care.
<b>%Identified:</b>	The proportion of children/youth assessed who were identified to with a need, potentially traumatic experience, strength to build, strength present, or caregiver resource, as defined above.
<b>%Resolved:</b>	Of the proportion of children/youth identified with an actionable need, strength to build or caregiver need on any assessment, this is the proportion who had a rating of '1' or '0' for this item on the most recent assessment. In other words, this is the proportion of children/youth who resolved a rating of '3' or '2' on any assessment to a '1' or '0' on the most recent assessment.
